POLYMER SCIENCE AND TECHNOLOGY DEPARTMENT MSc PROGRAM EDUCATIONAL OBJECTIVES

- Increasing the knowledge of MSc students on Polymer Science and Technology, developing their scientific research skills, ensuring that they are accepted to doctoral programs,
- To provide students with the ability to access information in the field of Polymer Science and Technology, to evaluate and interpret the data obtained,
- Educating individuals who have the equipment that addresses the demands and needs of stakeholder private sector and public institutions and organizations,
- Ensuring that graduates have the ability to work in the field of polymers and interdisciplinary projects, can take part in R&D and P&D projects in all kinds of research institutions.
